History of HandShake2

The participants' first event together was a Jewelcamp weekend in April 2014. This weekend allowed mentees to get to know each other and to see each other as another resource to be developed and drawn on throughout the program.

The first HandShake2 exhibition was held at the public gallery, Toi Pōneke in Wellington (November 2014). The size of the space offered the handshakers a great opportunity to explore new installation options with their work.

The second Jewelcamp and Masterclass was held in February 2015 and was coordinated and led by Benjamin Lignel who supported the mentees with developing ideas, extracting the difference between conceptual intent and material outcome, processes for the production of products versus projects and questioning assumptions about the format of exhibiting art objects.

The third HS2 exhibition was a stand out show in Sydney at Stanley Street Gallery during the Sydney JMGA Conference "Edges Borders Gaps" (10-12th July 2015).

The fourth HS2 exhibition in September 2015 took place at AVID – a well established, high calibre Wellington gallery, stocking craft and art objects. This exhibition offered the gallery goers the opportunity to see the mentors exhibiting their own work alongside that of their mentees.

The HANDSHAKE2 project is a 2 year progressive mentoring programme for selected contemporary jewellery artists. It offers several national and international exhibitions, professional development and the opportunity to expand and grow each maker's practice.

This group of jewellery artists will showcase exciting new work at Pah Homestead. It will be their fifth and final exhibition and represents the culmination of the two year intensive making programme. Each artist has recorded their development and progress of work and ideas on a blog handshake2.com. It's a fascinating read for other makers as well as those who want to learn more about jewellery.

In the four years since its conception, the HANDSHAKE programme has built a large reputation for excellence and inclusion has been sought by well-known and emerging jewellers from all over New Zealand. The participants are selected through an open call out and the selection panel consisted of internationally renowned experts from diverse art practices.

"It is a fine-tuning process and we have to ask if a mentorship would further the artist's practice, whether they have the drive to take risks and experiment, and to become a mentee, but also if the chosen mentor has the potential to progress their candidate. This project relies on the developing relationship and the concentrated focus of each mentee in tandem with the generosity and knowledge of the participating mentors."

The innovative programme is based on the old apprentice system but in reverse, where the mentor works for the mentee with digital media as the vehicle for communication. The mentee has regular feedback sessions with their chosen hero-artist through a virtual workshop window using Skype, blogs, and emails as well as the old-fashioned post to connect. Some also travel overseas to meet their mentors face to face.

In 2014 a fresh group of New Zealand contemporary jewellers began with their chosen hero in the second iteration of the Handshake (HS) mentoring and exhibition program – Handshake 2.
